

Assignment 2

- clown tent?

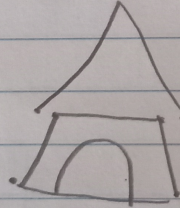

↳ Clickable interactive

- clown?

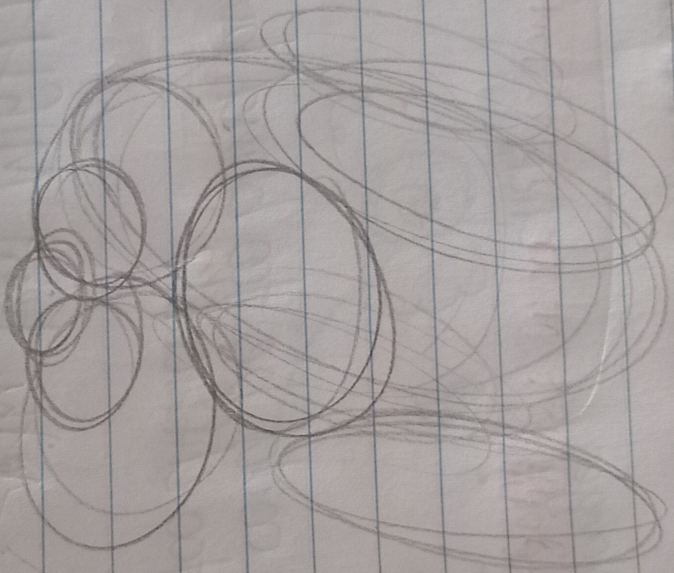

↳ Clickable nose interactive?

- the tent could be too bland, but won't
clown be too difficult?

-  the tent MIGHT
not work...

↳
I do want to give it
a try

-Bunny??

How can that be interactive?

yygg

- The tent push isn't working...
Idk what went wrong?

- I'll try to draw the clown, but I don't think
I can use audio... (ask for Mr. burt's help)

- How to make clown nose interactive???

→ X, Y, Size

• How many points to make smile?

→ Line??? → white circle over red circle
Remember, layers!

• Add drawSetLineSize last!

→

• Hair simplified from many circles to one
big piece than adding small circles of varying
sizes to sides and front of head

→ will work on later

• Color changing nose?!

• It's in Mod 1, is it acceptable?

↳ (Ask!)

▶ Can we 'animate' the emotion of the clown?

• yes, and yes! both require variables tho...

☒ hair

☒ nose → ~~color~~ variables

☐ expressions

~~Smile~~ (look creepy...) Scrap the smile unfortunately

☒ I guess make the hair also color changing, the provides such little substance

→ okay, finished nose and hair color (no honk Sfx, T.T)

- How long to do expressions with the eyes???

if statement changed the color,
how would that work for the eyes...

↳ instead of eyes, face paint!

↳ Keyboard via bool

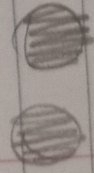

↳ Or via holding mouse button

```
# { Input MouseDown } paint code
```

```
}
```

```
}
```

X → Screw the star, do blush!

-Scrapped the face paint concept,
and emotion concept
